

# TIKTOK CASH EMPIRE

*The next chapter of your life begins here...*

## Before we get started...

I'm not going to waste your time with a bunch of fluff about how this has changed my life and blah, blah, blah. You get the point. **This will be a step-by-step detailed tutorial** which will explain exactly what you need to do to get started earning with TikTok.

**In short, you'll be promoting ClickBank offers to TikTok users who will go to the link in your bio and purchase something.** *You will then get a significant commission for each sale.* As we all know, **any single TikTok video has the potential to blow up** or go completely viral. It's seemingly random at times. But with consistency, and following each of the steps we've laid out for you, you will be earning big on TikTok in no time.

## Part 1: ClickBank Setup

1. Signup for your ClickBank Account [here](#).
2. Click "Start Here" in the top right corner.
3. Click "Skip this quick start guide."
4. Fill in your real personal info, verify your email address, and **complete the easy ClickBank setup process.**
5. Once you've logged into your Dashboard, navigate to "Affiliate Marketplace" in the menu on the left.
6. You'll see a "Categories" menu on the left. Scroll down to "Spirituality, New Age, & Alternative Beliefs," then select "Astrology." (this is the dumb shit teenage girls eat up)

- Now before you select which one you're going to promote, **be sure to look at the gravity score**. Options which have a **higher gravity score will convert at a higher rate**. See the example below.
- Pick one that is offering some kind of reading like star readings or tarot readings. This is a great example with a decent **gravity score**:

The screenshot shows a ClickBank offer for 'Star Path Reading -EPC STAR- Personalized Astrology'. The Gravity score is 50.44. The offer is in English and belongs to the 'Spirituality, New Age & Alternative Beliefs - Astrology' category. The main text reads: '100% Personalized Fresh Personal Development, Astrology, Tarot Offer Converts 2x Like Anything Else You've Ran Lately. Awesome Conversion [Read more](#)'. On the right, it shows 'Avg \$/conversion \$14.29' and a 'Promote' button. Below the main text, there are several icons and labels: 'Upsell Flow', 'Physical Product', 'One-Time', 'Recurring', '\$1 Trial', 'CPA', 'Affiliate Tools', 'Multiple HopLinks', 'Mobile Friendly', and 'Affiliates Require Approval'. There are also buttons for 'Affiliate Page' and 'Seller Contact'.

- Create any nickname you'd like, and then create your unique HopLink which **you'll be spreading throughout TikTok!**
- Take note of that link in a .txt file and save it. **You can also email it to yourself to make sure you don't lose it**. But if you do, you can always go back and create a new link, no problem.

## Part 2: TikTok Account Setup

- Download TikTok** on your mobile phone if you don't already have it. If you're logged into your personal account, **simply add a new account to your device for this project**.
- When signing up for a new TikTok, **use a number from [this app](#), called PingMe**.
- Make your username something that matches the product you're promoting on ClickBank. **For the example offer above**: "AstrologyMasters", "AstrologyWonder", "KnowYourFate", etc. You get the idea. **Just be a little creative**. It's not hard to think of usernames.
- Grab any random profile picture that matches your theme from the internet, and **your account is ready to go!** No need to worry about your bio or anything like that yet. You can add some basic text about the offer if you'd like, but you won't be able to add a link to your bio quite yet.

## Part 3: Setting Up Your Link and Getting Paid

1. There's a few steps before you'll be able to put a link in your bio on TikTok.
  - a. You must have at least 1,000 followers on your account. There are two ways to do this:
    - i. **You can grow the account organically by using the posting system I detail in the next section.** This is what I recommend.
    - ii. **You can purchase 1,000 TikTok followers online.** I won't give any specific sources, but they're easy to find all over the forums.
  - b. Once you have 1,000 followers, you must change your TikTok account to a business account. Follow [this tutorial](#) to do that easily.
2. **Now that your account is primed for profit**, go to your TikTok profile settings and add your hoplink from ClickBank to your profile. You should also add some text to your bio along these lines: "CLICK THE LINK FOR TAROT CARD READINGS," "DON'T CLICK THIS LINK", "TAP LINK TO CHANGE YOUR LIFE," etc. Again, get creative with it. Teenage girls love it, and that's all that matters.
3. **You should also use a link shortener** such as [bit.ly](https://bit.ly) to disguise your affiliate link. This will drastically help boost your conversion rate.

## Part 4: Posting Videos

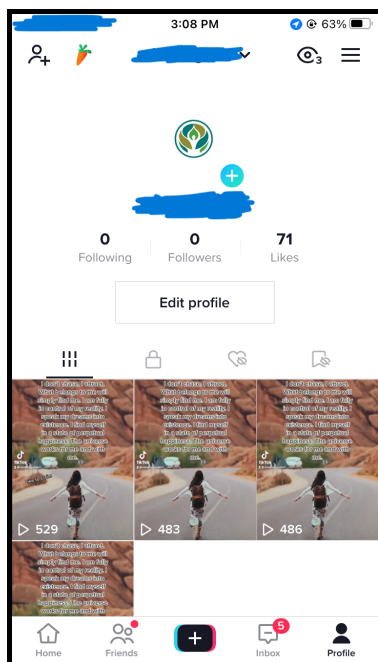

*Now, we get to the fun part. Let's make some f\*\*\*\*\* money.*

1. On your PC/Laptop, go to [Pexels.com/Videos](https://pexels.com/Videos) to get **amazing no-copyright stock videos for you to post on TikTok**. Here is an example of a really good video. It should provoke thought, something about nature, a single person walking alone on a road, or something along those lines.

- a. Pexel has more than enough options to choose from and you'll be posting the same video 10 times before you have to change it anyway.
2. **Download the video onto your PC, then email it or somehow deliver it to your phone.** There are many ways to do this, email is just the easiest for me. Download it onto your phone and then bring it right into TikTok.
3. **Edit the video to be 12 seconds ideally.**
4. Use a random trending sound every time you post a video from the **"Instrumental"** section when adding TikTok sounds.
5. **Add a text overlay onto your video.** Just copy and paste a quote from [this link](#).
  - a. You can post the same video on the same account, with the same quote 10 different times before you should change it. Use a different trending instrumental sound each time to increase your chances of going viral. **One viral video can make you thousands of dollars. I've seen it happen to people just starting out with this method.**
6. **For the caption,** put something along these lines: "CLICK LINK IN BIO FOR XYZ," "DO NOT CLICK THE LINK IN MY BIO", etc. – again, **you have to be a little creative with it.**
7. **After 10 videos, just grab a new video** from Pexel.com, a new quote, and repeat the process. Your account will grow with a snowball effect. The key is to never stop posting. **Once, every 30 minutes to an hour,** just quickly upload a video. It only takes 10 seconds!

Here's an example from a brand new member just starting out!

## Part 5: ADVANCED PACKAGE - AUTOMATE THIS ENTIRE PROCESS AND MAKE BANK

First off, I'd like to thank you for purchasing the Advanced Package (or upgrading from Basic), but really you should be thanking yourself. An opportunity like this doesn't come often.

1. You have a few options for automating the process.
  - a. **Firstly**, you can hire a VA from any one of [these sites](#). You will provide login details to at least three different TikTok accounts. Their job will be to post videos for you. **And the best part is, the instructions are right here in this PDF.** Just copy and paste them over to your new VA and watch your earnings go through the roof without you even having to worry about it.
  - b. **Your second option** is to look for a TikTok video posting bot. Now, this won't be realistic for most people as such software goes for a good price and can be hard to come by.
  - c. **Your third option**, and one of the best in my opinion, is to post around on the forums, HF included, looking for Virtual Assistants to post videos for you. There are plenty of international people who are looking for easy tech work that pays reasonably well.
  - d. **The VA's will set their hourly price for such services**, but regardless of the price, the work they are doing for you, spreading your link throughout TikTok, is invaluable. When recruiting on forums, you can easily find people willing to work for \$10 USD per hour or less.
2. **If you don't have the upfront investment to pay a VA**, I recommend manually posting videos for one or two weeks until you have earned enough. Then, **refer back to Step 1.**
